

Cosmos Sports Institute

Cosmos Sports class is an investment in yourself. This course provides an depth view of what it is like to work in professional sports. In some ways, it is a test drive into the sports world.

Cary and his team have excellent industry relationships to place qualified graduates. When you look at your investment in a college or universities, the investment in this course is money well spent. I fully recommend this two week sports educational component to prepare you for your future in sports.
